West End Gun Club

West End Gun Club (WEGC): The West End Gun Club (WEGC) is a privately owned Club that is a non-profit California Corporation (Inc.) dedicated to encouraging organized rifle, pistol and shotgun shooting among citizens of the United States, improving the citizens' knowledge of safe handling and proper care of firearms, improving marksmanship and developing the characteristics of honesty, good fellowship, self-discipline, team play and self-reliance as essentials of good sportsmanship. The WEGC facility is a "members only." Only members and guests of members can use the facility.

The WEGC has an 80 acres shooting facility in Meyer Canyon of Lytle Creek, California. The facility offers a wide range of shooting participation opportunities.

WEGC is a National Rifle Association (NRA) and California Rifle and Pistol Association (CRPA) affiliated club.

National Rifle Association of America (NRA): Founded in 1871, the National Rifle Association (NRA) is an American nonprofit organization that advocates for gun rights based upon the 2nd Amendment of the United States Constitution. Founded to advance rifle marksmanship, the modern NRA continues to teach firearms safety and competency. NRA membership has surpassed 7 million. The organization is led by a board of 76 elected members who are nominated by committee or by petition from the membership. The organization also publishes several magazines and sponsors competitive marksmanship events. Since 1934, the NRA has informed its members of firearm-related bills and it has directly lobbied for and against legislation since 1975.

California Rifle and Pistol Association (CRPA): Founded in 1875, the California Rifle and Pistol Association (CRPA) is an organization of sportsmen dedicated to the preservation of our American heritage. In this age of constant political attacks on the rights of law-abiding citizens to own and use firearms for legitimate purposes, the CRPA is the state organization dedicated to protecting firearm freedoms and promoting shooting sports solely in the State of California. CRPA's lobbyist in Sacramento fights adverse firearms legislation and advances laws that will protect your rights. CRPA's bimonthly publication, *The Firing Line* and website keeps its members abreast of current legislative and shooting news, as well as offering a public forum so members can express their views in print.

Though the CRPA is the official state association of the National Rifle Association, the CRPA is a stand-alone California non-profit corporation, independently controlled by its own Board of Directors. CRPA's members include: law enforcement officers, prosecutors, professionals, firearm experts, the general public, and loving parents.

West End Gun Club Shooting Activities

IDPA:

International Defensive Pistol Association (IDPA), created a shooting sport based on defensive pistol techniques, using equipment including full-charge service ammunition to solve simulated "real world" self-defense scenarios. Shooters competing in defensive pistol events are required to use practical handguns and holsters that are deemed suitable for self-defense use. Of the matches available through the WEGC, IDPA matches could be considered the foundation and a good starting point for those who desire to enter competitive shooting matches.

PRACTICAL PISTOL:

Practical Shooting, also known as dynamic shooting or action shooting, is a set of shooting sports where the competitors are trying to unite the three principles of precision, power and speed, by using a firearm of a certain minimum power (caliber) to score as many points as possible during the shortest amount of time (or sometimes within a set maximum time). While scoring systems vary between organizations, each measures the time of which the course is completed, with penalties for inaccurate shooting. The courses are called "stages" and are shot individually by the shooters. Usually the shooter must move and shoot from several positions, fire under or over obstacles and in other unfamiliar positions. There are no standard exercises or set arrangement of the targets, and the courses are often designed so that the shooter must be inventive, and therefore the solutions of exercises sometimes varies between shooters.

LESA:

Limited Extreme Shooting Association (LESA) matches are both challenging and fun, even for the more advanced shooters. LESA matches emphasize the tactical side of competitive practical shooting by doing things like shooting on the move, shooting from cover, tight shooting lanes, use of no shoot targets, and use of a strong/weak hand, combo weapon stages, par time standards, and limited round count on paper. Target distances can range from contact close to the outer limits to test your skill with your firearms. LESA matches feature paper targets as well as many types of steel targets, such as the Texas star, spinners, flashers, droppers, clay throwers and other reactive steel.

3-GUN:

3-Gun, depending on the types of firearms used, are "practical shooting" events where each of the stages require the competitor to use and transition between a combination of handguns, rifles, and shotguns. Multi-Gun has a lot in common with ordinary IPSC / USPSA matches (i.e., the International Practical Shooting Confederation / United States Practical Shooting Association matches), and matches generally have courses of fire where the shooter must move through different stages and engage targets in a variety of different positions.

COWBOY:

Cowboy Action Shooting (CAS), also known as western action shooting, single action shooting, or Cowboy 3-Gun) is a competitive shooting sport that originated in Southern California in the early 1980s. CAS is a type of multi-gun match utilizing a combination of handgun(s), rifle, and/or shotgun in a variety of "Old West-themed" courses of fire for time and accuracy. Participants must dress in appropriate theme or era "costume" as well as use gear and accessories as mandated by the

respective sanctioning group rules. CAS requires competitors to use firearms typical of the mid-to-late 19th century.

PBR:

Precision Bolt Rifle (PBR) matches are designed to make the Bolt and/or Semi-Auto Rifle Shooters more proficient and confident shooter with the various courses of fire. PBR matches usually shoot at steel (unless there is a "RED FLAG" warning). Matches designated for "*Precision Bolt Rifle*" are specifically designed for the Bolt Action Shooters only (No semi-automatic weapons). Usually a quality built heavy barrel rifle with quality optics would be best for this match. However, a quality hunting rifle can be used as well. Unless otherwise noticed, Semi-Auto Rifles, such as AR-15 Type Platform with optics, M1A Rifle with optics, etc., are allowed in PBR matches. A minimum 10X power scope is needed since we shoot at smaller targets, such as M.O.A. (Minute of Angle) sized targets. More scope power is a benefit, as well as multiple magazines, however not needed.

SILHOUETTE:

Metallic silhouette shooting is a group of target shooting disciplines that involves shooting at steel targets representing game animals at varying distances, seeking to knock the metal target over. Metallic silhouette shooting at WEGC is conducted with small bore rifles.

SHOTGUN - TRAP/SKEET/SPORT:

There are traditionally three major disciplines of competitive clay pigeon shooting (i.e., shooting shotguns at clay targets). The disciplines include trap shooting, skeet shooting and sporting clay shooting. They are distinguished roughly as follows:

- TRAP: In trap shooting, the targets are launched from a single "house" or machine, generally away from the shooter.
- SKEET: In skeet shooting, targets are launched from two "houses" in somewhat "sideways" paths that intersect in front of the shooter.
- SPORTING CLAYS: Sporting clays usually includes a more complex course, with many launch points.

There are variations within each group.

I. Membership and Dues

Dues for current Annual members are established in the By-laws of West End Gun Club, Inc. Annual members must renew their membership on or before December 31 of each year. Dues for Annual members are \$240.00 annually, with a one-time initiation fee of \$240.00. Annual membership dues, fees and renewals may only be paid to West End Gun Club, Inc. through the office of the Membership Director. The fees for Limited membership are set by the Board and are currently \$90.00 per year initially (as of January 1, 2017), plus daily use fees thereafter. Limited membership is valid until one year from the start date on the Limited member card and may be sold or renewed by the Rangemaster at the Main Range.

II. Range Fees

1. Main Range Fees

Fees are charged for use of the Main Range when a Rangemaster is present and controlling the Main Range firing line. Currents fees are:

- a. \$5 daily range fee for Limited members and \$10 daily range fee for each Limited member guest. Limited members are limited to 2 guest shooters, including junior shooters.
- b. No range fees are charged for Annual members and his or her immediate family (includes their spouse, minor children and minor grandchildren) and \$5 daily range fee each for each Annual member guest, up to three guests per Annual member.

Waivers must be completed and signed by a guardian who is present for all guests that are minors and present on the range, whether they are shooting or not.

2. Match fees

The fees paid by competitors in scheduled events are set by each discipline's Director and are listed at the top of each month's newsletter. Payment of a match fee does not entitle the guest to shoot free of charge on the Main Range or to the use of any WEGC range facilities before or after the match, without being with a WEGC member. Check with the Match Director for additional fees for special match events.

3. Group fees

The Board establishes range fees and permission for special recreational events and use by members on a case-by-case basis. In general, however, range fees will apply and an Annual member must be in attendance with the group at all times.
